△壁仕上面

Technical drawing of the TOYOTOMI T-1000 electric heater. The drawing shows the heater's profile with a width of 300mm and a height of 497mm. The distance from the floor to the top of the heater is 117mm, and the distance from the floor to the bottom of the heater is 380mm. The heater is shown with a power cord (電源コード L=1000) and a ground wire (アース線 L=200) connected to a wall outlet. The wall outlet is labeled "床仕上面" (Floor finish top surface). The drawing also shows the heater's base with four screws and a central circular vent. The text "参考値" (Reference value) is written below the width dimension.
